

### JokeyPhone

Helping the world tell great jokes.

# What the hell is a JokeyPhone???

#### What the hell is a JokeyPhone???

 JokeyPhone is a tool to help people tell, hear, remember, and pass on great jokes.

JokeyPhone is the Wikepedia of jokes.
 The world's digital joke book.

JokeyPhone is a website and a phone app and a **TV show** that allows you to access hundreds of jokes from thousands of categories in lightning quick video files.

JokeyPhone is me, hearing a great joke, 're-telling it', (Using your webcam or phone camera, our unique teleprompter), then sending it on to you.

JokeyPhone is so easy, and so much fun, and it makes you look so damn clever.

## JokeyPhone will be the best joke site on the planet on the day we launch.

It's sad, but it's true. There's a lot of great comedy sites. A lot of stand-ups doing 'bits'. A lot of funny shorts. But the street level joke is not in good shape out there my friends...

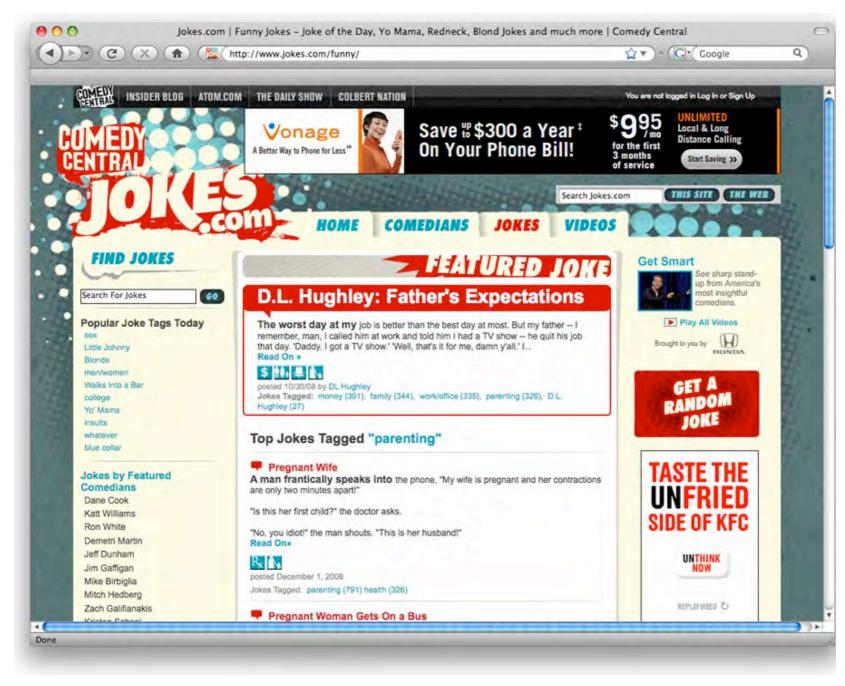

## JokeyPhone will be the best joke site on the planet on the day we launch.

## JokeyPhone will be the best joke site on the planet on the day we launch.

You just saw the three biggest joke sites on the planet. The big dogs.

Now, here's JokeyPhone...

Must be nice to be King on the day you are born.

- JokeyPhone understands completely the one-to-one nature of online entertainment.
   Quick. Funny. Malleable. Easily personalized.
- JokeyPhone allows for micro-fame in targeted market.
- JokeyPhone can be an extension for both technology and content partners. (phone, TV, websites, widgets, and bundled content.)

But how do you monetize something like this? I mean c'mon man, have you read the news?

Things are not good!

- JokeyPhone can easily fill insatiable content needs for existing sites in return for ad revenue share, or as favored placement to build JokeyPhone's page views.
- JokeyPhone allows for television and media branding in the form of a television strip show and comedy specials.
- JokeyPhone's brand name recognition can be built into merchandizing tie-in such as Jokey Phone Books, calenders, greeting cards, (traditional and new media) and DVDS.

## Okay, **JokeyBoy**, you need to break that down a little....

Fine. Here we go –

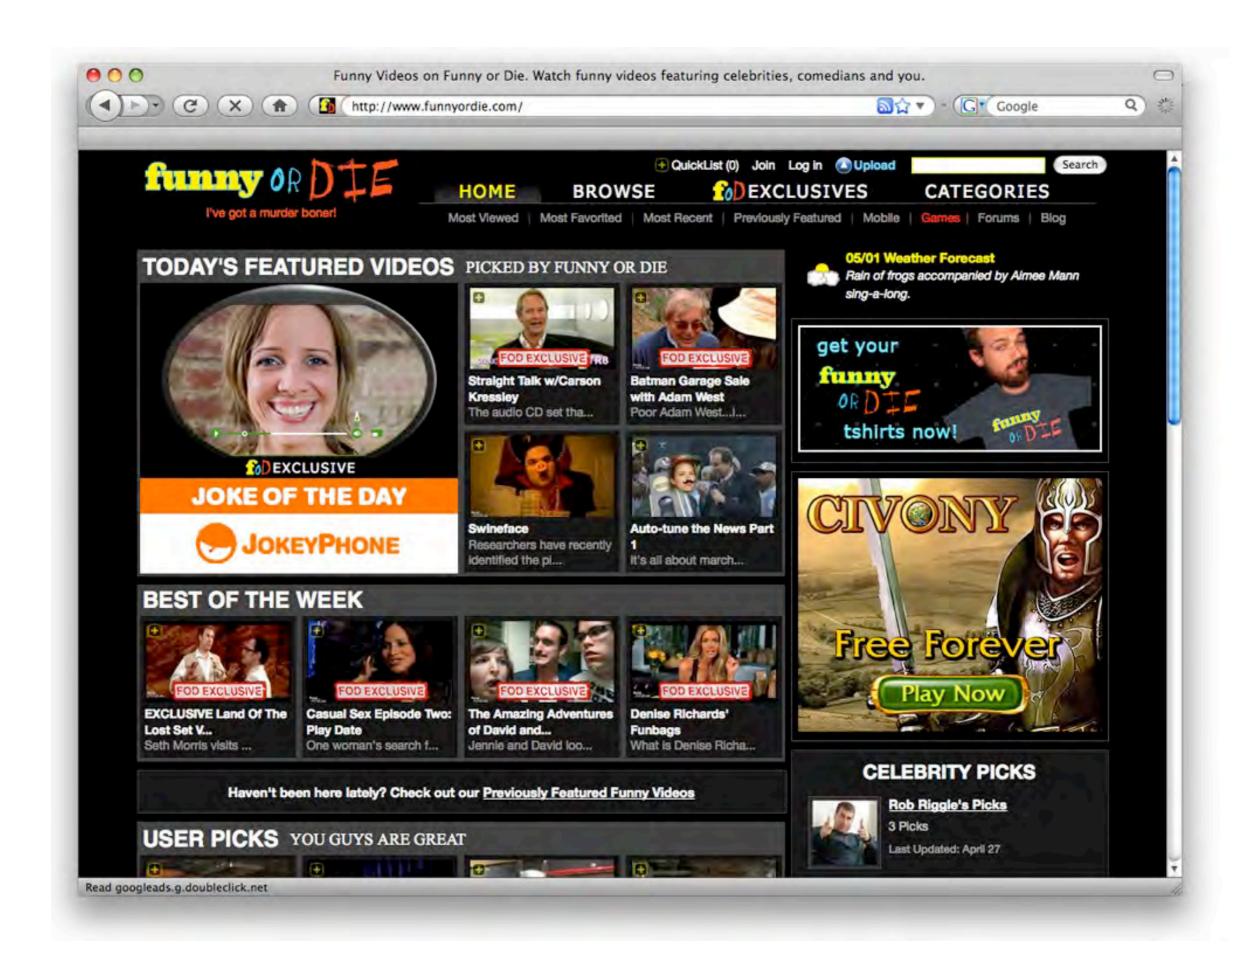

The ways JokeyPhone makes money.....

## Phase One (the very early days) JokeyPhone Partners With Existing Sites

In exchange for fresh, constant, clever content, we get a corner, block, or channel on their site and we either get a small piece of the ad revenue they bring in, or we get placement that ups our page views/visibility.

We build JokeyPhone iPhone, Blackberry, Google, and Noika free phone apps that allows watching and telling jokes from Mobile handsets.

By using partnership, phone apps, and viral marketing quickly build to enough page views where we can break even.

Numbers Goal: one million unique views.

Conservative Ad Prices (as per Todd Kreiger @ Denudo)

Main Banner - 10 \$CP

Left Banner - 7 \$CPM

Right Banner - 7 \$CPM

Total Banner Income - 24,000 dollars a month / 288,000 dollars a year.

Video Ads Income - One million ads at 25 dollars \$CPM / 20,000 dollars a month / 240,000 dollars a year.

(If every home page viewer watches two jokes and video ads roll on second joke viewed.)

**Total Income** - one year, at one million monthly unique views 578,000 dollars

Numbers Goal: three million unique views.

Conservative Ad Prices (as per Todd Kreiger @ Denudo)

Main Banner - 15 \$CP Left Banner - 10 \$CPM

Right Banner - 10 \$CPM

Total Banner Income - 105,000 dollars a month / 1,206,000 dollars a year.

Video Ads Income - One million and a half ads at 35 dollars \$CPM / 52,000 dollars a year.

(If every home page viewer watches two jokes and video ads roll on second joke viewed.)

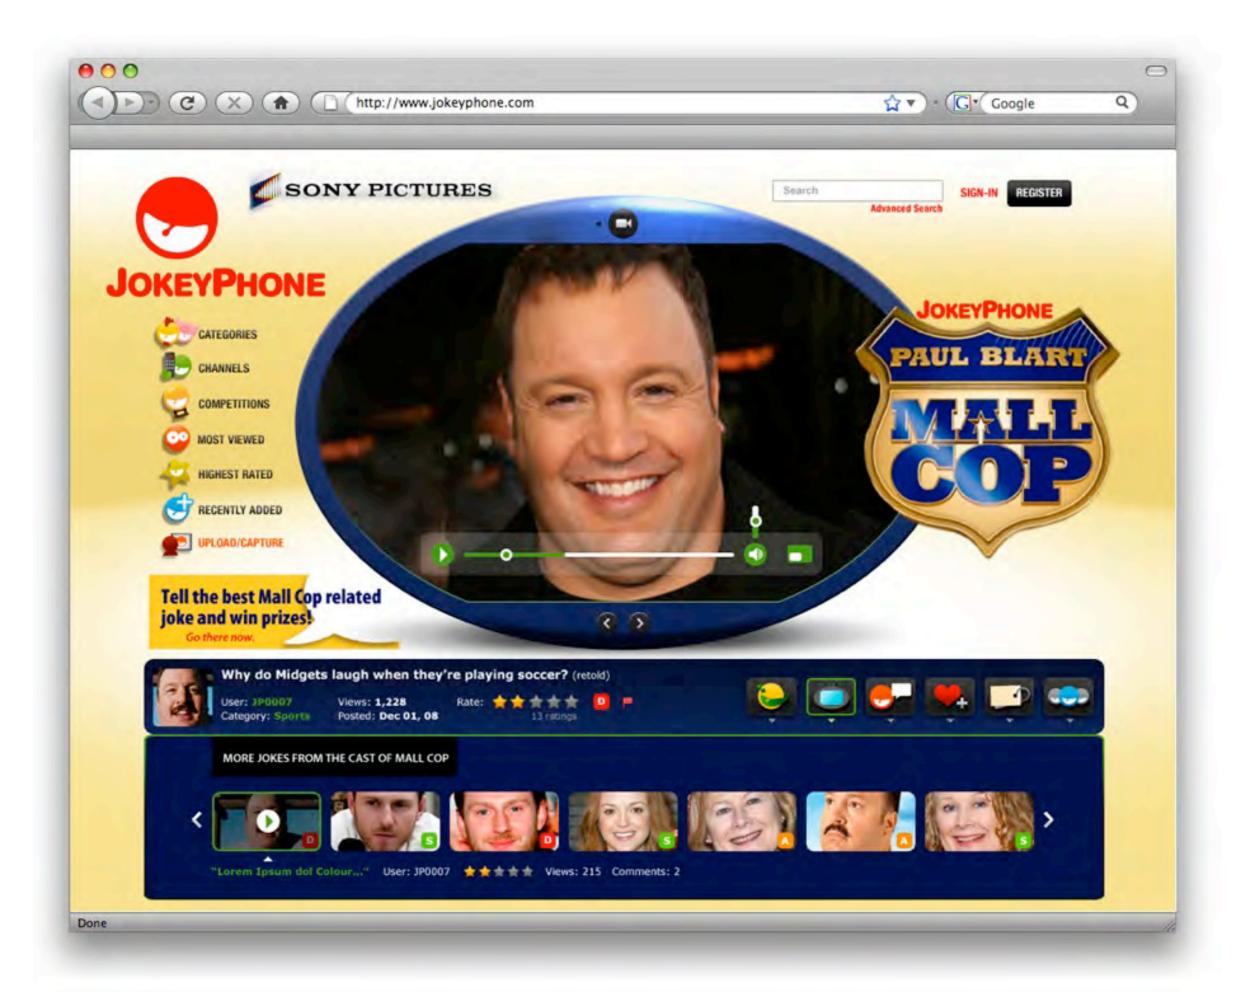

#### **Phase Two**

With forward growth as year one ends, in addition to selling banner ads or video rolls, or even in place of, we sell 'monthly client skins' and ten monthly or bi-monthly 'contests'

#### **Phase Two**

The concept being that what is worth maybe 35-60 cents per \$CPM as a total of banner and video adds, or 35 to 60 thousand dollars a month, per one million viewers, is worth more in the total sum of pure sight identification and branding.

(\*What is worth 60 dollars per \$CPM for three banners and a video ad split up among products, becomes a package worth 85 dollars \$CPM when the ideal of customization is maximized.)

When our the JokeyPhone concept itself becomes an ad for the product.

#### **Phase Two**

In the same vein, we will hold six contests a year and sell sponsorships that give away products and services to our winners and a fee to us for hosting and servicing the competition.

# Phase Three – Year Three (maybe sooner) This is where it gets to be fun!

- We produce a nationally televised original strip comedy show version of JokeyPhone. (America's Funniest Home Videos meets Make Me Laugh meets American Idol, meets Deal Or No Deal.)
- A fast, funny, half hour show using the best jokes of the site.
- Prizes are given out to users whose jokes are told. People get to be on TV <u>and</u> they win a new camcorder!
- Celebrities tell their favorite jokes for their favorite charities.
- Top Jokers come to LA and appear live to tell jokes and perform in joke-offs.

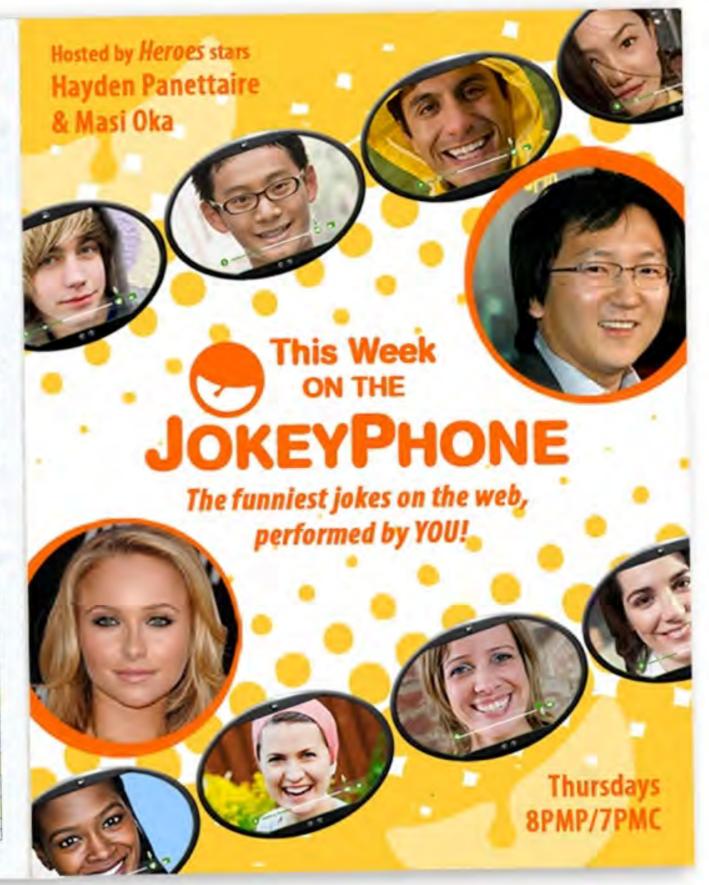

### Thursday 5/14 Prime Time

Customers in some Mountain Time states now receive the Pacific version of our prime-time grids, instead of the Eastern/Central version, and will need to make the necessary time adjustments.

## Phase Four - Year Four

- We start to regularly produce live action version of jokes (blonde jokes acted out).
- We create an original series based on jokes we have done (Three Dumb-ass Blondes; 'Yo momma's so fat').
- Original movie shorts.
- Celebrity jokesters (charity drives for CPM'S).

# Phase Five - Years' Five & Six

- Original feature films grown from JokeyPhone lab ideas, comic joke shorts and series and internet viral marketing. Turns JokeyPhone brand into a feature film comedy brand.
- We use our site and our mobile handset access, our fan base to market our films and their openings.

## Thursday 5/14 Prime Time

Customers in some Mountain Time states now receive the Pucific version of our prime-time grids, instead of the Eastern/Central version, and will need to make the necessary time adjustments.
